The after class assignments were at par with the JEE Advanced papers and I found them really relevant according to the final question paper. The questions taken up in the class were very helpful and insightful. The guidance provided in the Infinitivity camp was very essential for achieving this rank. I would like to thank the whole Narayana team for helping me achieve this."

Hi, I am Avadh Hindocha. I joined Narayana Infinity SRK camp under the mentorship of Ashish Arora Sir two months before JEE Advanced 2024. I joined that camp as I gave a final touch to my preparation for JEE Advanced. The camp was really helpful to me as there were online lectures for each and every chapter of all subjects. Also there were practice sheets for each and every chapter which had a perfect difficulty level for the JEE advanced preparation. The faculties were also really good who helped to solve all my doubts. Ashish Sir did a really good job in making this course and due to that I was able to achieve a rank of 49 in JEE Advanced 2024 and now I am pursuing Computer Science Engineering in IIT Bombay.

Hi, Doctor Atishay Jain here. I highly recommend Narayana institute for your NEET prep. I joined Narayana Test Series few months back to give the final touch to my preparation and it paid off. It motivated me to work harder. Regular papers made me more comfortable with the NEET pattern. Faculty of Narayana supported in my ups and downs. I could clear my doubt even at 11 pm. My concepts got stronger and better with each paper. And the best thing was that papers were NEET oriented. Joining test series was that important piece of puzzle which I was finding. The only thing I did in last month was giving papers and clearing doubts.
